2. Why do you want to serve on this board or authority?

I would like to serve because I believe fair and accurate property assessment is important to a strong, well-managed community. My five years in economic development gave me experience working with property owners, businesses, developers, local governments, and real estate projects, and I would like to continue using that experience in a way that benefits Hart County.

8. What professional or community experience do you have related to this position?

I have five years of economic development experience involving commercial and industrial properties, business recruitment, development projects, real estate, and community planning. I have worked closely with property owners, developers, businesses, local governments, and regional partners. I also have experience with Tax Allocation Districts (TADs) and understanding the relationship between property development, investment, and local government revenues.

10. What would be your biggest contribution if appointed to this position?

I would bring a strong understanding of property development and economic development, along with experience working with different community stakeholders. I would approach the position objectively, listen carefully, and work to ensure decisions are fair, consistent, and in the best interest of Hart County.

11. Other comments or information:

I am currently a stay-at-home mom and am looking for meaningful ways to continue contributing to my community while maintaining and building on my professional experience. Serving on the Board would allow me to use my background in economic development and real estate while gaining valuable experience in county government and public administration. I hope to pursue a county administration role in the future and believe this opportunity would allow me to continue developing those skills while serving Hart County.
