HART COUNTY BOARD OF COMMISSIONERS

August 26, 2025

6:00 P.M.

Hart County Board of Commissioners met August 26, 2025 at the Hart County Administrative and Emergency Services Center.

Chairman Marshall Sayer presided with Commissioners Michael Bennett, Frankie Teasley, Jeff Brown, and Joey Dorsey present at the meeting.

1. PRAYER

Prayer was offered by Commissioner Dorsey

2. PLEDGE OF ALLEGIANCE

Everyone stood in observance of the Pledge of Allegiance.

3. CALL TO ORDER

Chairman Sayer called the meeting to order.

4. WELCOME

Chairman Sayer welcomed those in attendance via in person, HTC and YouTube.

5. APPROVE AGENDA

Commissioner Dorsey moved to approve the agenda. Commissioner Brown provided a second. The motion carried 5-0.

6. APPROVE MINUTES OF PREVIOUS MEETING(S)

8/12/2025 Regular Minutes

Commissioner Bennett moved to approve the 8/12/2025 Regular Meeting minutes. Commissioner Teasley provided a second to the motion. The motion carried 5-0.

7. REMARKS BY INVITED GUESTS, COMMITTEES, AUTHORITIES

None

8. REPORTS BY CONSTITUTIONAL OFFICERS & DEPARTMENT HEADS

County Attorney Kim Higginbotham, stated she received a call from the Jail loan underwriter suggesting the Board form a Financing Authority and the resolution would need to be in by December; a Battery Storage facility had contacted her about looking for land in Hart County, she suggested the Board re visit the Business License Ordinance.

9. COUNTY ADMINISTRATOR'S REPORT

None

10. CHAIRMAN'S REPORT

Chairman Sayer thanked everyone involved in the Ag Expo and that it was a great success.

## 11. COMMISSIONERS' REPORTS

Commissioner Bennett also thanked those involved in the Ag Expo; explained that the bushhog job done on Nancy Hart School Rd was a quick job done for safety reasons and they would be back to clean it up; asked if there were any updates on the 3 way stop at Liberty Hill Rd.; thanked all County employees.

Commissioner Teasley thanked the Public Safety, road department, and all County employees for all they do; echoed thanks to all who participated in the Ag Expo.

Commissioner Brown echoed same sentiments of the Ag Expo.

Commissioner Dorsey echoed the same sentiments concerning the Ag Expo; offered condolences to the family of Gary Cobb, former County Administrator.

## 12. OLD BUSINESS

### a) Permission to Solicit Bids for Rec Basketball Uniforms

Commissioner Dorsey moved to give permission to solicit bids for Recreation basketball uniforms. Commissioner Bennett provided a second. The motion carried 5-0.

### b) Equine Fireworks Ordinance (3<sup>rd</sup> and Final)

Commissioner Dorsey moved to accept and adopt the 3<sup>rd</sup> and final Reading of the Equine Fireworks Ordinance (to comply with HB 614). Commissioner Brown provided a second. The motion carried 5-0.

### c) Bid Opening Road Survey RFP

No Action Taken

## 13. NEW BUSINESS

### a) Upgrade Scales at Transfer Station

Commissioner Bennett moved to approve the upgrade of the scales at the Transfer Station and to put in a request that the work be done on a Saturday. Chairman Sayer provided a second. The motion carried 5-0.

### b) Tattoo and Body Piercing Ordinance (Review and Possible 1<sup>st</sup> Reading)

Commissioner Dorsey moved to accept the 1<sup>st</sup> reading of the Tattoo and Body Piercing Ordinance. Commissioner Teasley provided a second. The motion carried 5-0.

### c) FB Landing Holdings, LLC Level III (Hartwell Acres) Subdivision (3, 6+ ac lots)

Commissioner Dorsey moved to approve the FB Land Holdings, LLC (Hartwell Acres) Subdivision as a Level I subdivision. Commissioner Bennett provided a second. The motion carried 5-0.

## 14. PUBLIC COMMENT

Patrick O'Hara, 40 Bailey Pl, came to introduce himself and O'Hara Nursery located at 110 Bailey Pl; he had previously spoken with County Administrator Terrell Partain and County Marshal Jud Turpin concerning the signs he had in the ROW and asked the Board to consider allowing agricultural businesses to be able to put signs in the ROW temporarily.

Commissioner Bennett and Commissioner Dorsey shared their concerns on how that would affect the bushhogging of County roads.

Jen Wagner, 173 Motes Rd, Dewy Rose, GA expressed an interest in having an event near the ballfield at the Recreation Department; asked on the status of the contract with NEGAS.

Commissioner Dorsey stated that she would need to go before the Recreation Advisory Board and if approved they would bring it before the Board of Commissioners.

Commissioner Dorsey explained that before committing to a contract with NEGAS with the current funding formula that the other funding partners would have to agree also and are still working on the possibility of having a board to oversee the contract.

A Citizen spoke again on his concerns of AI in the Court system with Jury selections; also shared that Clerk of Court, Frankie Gray, had brought him a new form to be excused from Jury Duty.

Chairman Sayer expressed that the Court system does not use AI to select jurors.

#### 15. EXECUTIVE SESSION – Real Estate

Commissioner Brown moved to exit the Regular Meeting and go into Executive Session – Real Estate. Commissioner Bennett provided a second. The motion carried 5-0.

Commissioner Dorsey moved to exit Executive Session - Real Estate and open the Regular Meeting. Commissioner Teasley provided a second. The motion carried 5-0.

#### 16. ADJOURNMENT

Commissioner Dorsey moved to adjourn the meeting. Commissioner Bennett provided a second. The motion carried 5-0.

Marshall Sayer, Chairman

---

Lisa Evans, County Clerk

Hart County Board of Commissioners  
Called Meeting Tuesday August 26, 2025, to follow  
Regular Meeting at the Administrative and Emergency  
Services Building

Chairman Marshall Sayer presided with Commissioners Michael Bennett, Frankie Teasley, Jeff Brown, and Joey Dorsey present at the meeting.

Chairman Sayer called the meeting to order.

1. FY 26 General Fund Budget review

General fund budget was open for discussion.

2. Special Revenue Accounts

- 203 Insurance Premium
- 204 10% Surcharge/Jail Fund
- 206 Behavioral Health Fund
- 210 Confiscated Assets – Vice Fund
- 212 Drug Abuse Treatment & Education Fund
- 215 Emergency 911 Telephone Fund
- 216 DFACS Facility Fund
- 257 Hotel Motel Tax Fund
- 540 Solid Waste Disposal / Tipping Fees Fund
- 557 Corp of Engineers' Sites Fund

Special Revenue accounts were discussed. Additional funds were added to the 203 account for facility maintenance.

3. Other Items as time allows.

With no other business to discuss, Commissioner Dorsey moved to adjourn the meeting. Commissioner Teasley provided a second. The motion carried 5-0.

Marshall Sayer, Chairman

---

Lisa Evans, County Clerk

Hart County Board of Commissioners  
Called Meeting Tuesday September 2, 2025,  
at 5:30 p.m. at the Administrative and  
Emergency Services Building

Chairman Marshall Sayer presided with Commissioners Michael Bennett, Frankie Teasley, and Joey Dorsey present at the meeting. Commissioner Jeff Brown was absent.

Chairman Sayer called the meeting to order.

1. Courthouse Audio Visual Upgrade (ARPA Grant) T.J. BeMent

No Action Taken

2. FY 26 General Fund Budget Review Continued

The general fund budget was open for discussion. Changes were made to multiple revenue line items.

3. Special Revenue Accounts

- 203 Insurance Premium
- 204 10% Surcharge/Jail Fund
- 206 Behavioral Health Fund
- 210 Confiscated Assets – Vice Fund
- 212 Drug Abuse Treatment & Education Fund
- 215 Emergency 911 Telephone Fund
- 216 DFACS Facility Fund
- 257 Hotel Motel Tax Fund
- 540 Solid Waste Disposal / Tipping Fees Fund
- 557 Corp of Engineers' Sites Fund

Special revenue accounts were gone over.

4. Voting Delegate for ACCG Fall Legislative Conference

Commissioner Dorsey moved to appoint Commissioner Teasley as the Voting Delegate for the ACCG Fall Legislative Conference. Chairman Sayer provided a second. The motion carried 4-0.

5. Other Items as Time Allows – FY 26 Avita Transit Contract

Commissioner Bennett moved to approve and allow Chairman Sayer to sign the FY 26 Avita Transit contract. Commissioner Teasley provided a second. The motion carried 4-0.0

With no other business to discuss, Commissioner Dorsey moved to adjourn the meeting. Commissioner Teasley provided a second. The motion carried 4-0.

## **MEMORANDUM**

Terrell Partain,  
County Administrator  
September 5, 2025

RE: Item 12 A Tattoo and Body Piercing Ordinance (review and possible 1st reading)

Attached is the ordinance that was taken as a first reading at the August 26, 2025 regular meeting. It is to be considered for the second reading.

## **ARTICLE III. - TATTOO AND BODY PIERCING ESTABLISHMENTS**

### **Sec. 42-50. - Definitions.**

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

*Tattoo and body piercing* mean to mark or color the human skin by pricking in, piercing the skin, or implanting coloring matter so as to form indelible pigments, dyes, marks or figures under the skin or by the production of scars; provided, however, that the term "tattoo and body piercing" shall not mean a tattoo and body piercing placed upon the skin by a physician for medical identification purposes and shall not apply to ear piercing or the tattoo and body piercing of farm or domestic animals for the purpose of identification. Cosmetic services utilizing semi-permanent pigments or dyes for enhancing the natural appearance of physical traits such as microblading (eyebrows) which are performed by an individual with the certifications and/or certificates, in compliance with the state rules and regulations are excluded from this definition.

*Tattoo and body piercing artist* means any person who actually performs the work of tattoo and body piercing upon humans, except that the term "tattoo and body piercing artist" shall not include in its meaning any physician or osteopath licensed under Chapter 34 of Title 43 of the Official Code of Georgia, nor shall it include any technician acting under the direct supervision of such licensed physician or osteopath, pursuant to O.C.G.A. § 16-5-71(a).

*Tattoo and body piercing establishment* and/or *tattoo and body piercing studio* mean any facility, building, room or place on a fixed or mobile foundation where the tattoo and body piercing of humans is practiced or where the business of tattoo and body piercing is practiced or where the business of tattoo and body piercing of humans is conducted or any part thereof.

### **Sec. 42-51. - Prohibited practices.**

(a) No person shall operate a tattoo and body piercing establishment/studio or engage in the practice or business of tattoo and body piercing human skin as a tattoo and body piercing operator or tattoo and body piercing artist unless the person has first secured a permit to do so from the county board of health; and has complied with the ordinances of the county.

(b) No person shall operate a tattoo and body piercing establishment/studio or engage in the practice or business of tattoo and body piercing as a tattoo and body piercing operator

or tattoo and body piercing artist without following an approved exposure control plan as described by section 42-52 of this article.

(c) No tattoo and body piercing operator or tattoo and body piercing artist shall tattoo and/or perform body piercing on any person while such tattoo and body piercing operator or tattoo and body piercing artist is under the influence of alcohol, drugs or other stimulants or depressants, nor shall such tattoo and body piercing operator or tattoo and body piercing artist tattoo and/or perform body piercing on any person who is a minor, (under the age of 18), with the exception of ear piercing, or who is under either the influence of alcohol, drugs or other stimulants or depressants or any person of unsound mind.

(d) No person shall operate a tattoo and body piercing establishment/studio or engage in the practice or business of tattoo and body piercing as a tattoo and body piercing operator or tattoo and body piercing artist unless he/she is duly licensed by the applicable state authority as a licensed practical nurse, registered nurse, physician's assistant, physician, or doctor of osteopathy, provided, however, that any person who has lawfully operated a tattoo and body piercing parlor in the county for a period of one year immediately prior to the effective date of the ordinance from which this article is derived with no violations of law and no history of the creation of health hazards shall be entitled to engage in the business of a tattoo and body piercing operator notwithstanding the provisions of this subsection (d), provided further, that such operator shall not be relieved of any other requirements of this chapter.

**Sec. 42-52. - Approval of county board of health required for permit.**

(a) A condition precedent prior to operation shall be satisfactory proof that the tattoo and body piercing establishment/studio has secured from the county board of health a permit to operate the establishment.

(b) The applicant shall be required to submit with his application an annual inspection fee of \$250.00, or such fee as shall be set from time to time by the county board of health. Thereafter, such inspection fee shall be due and payable on an annual basis.

(c) The tattoo and body piercing operator shall submit and the county board of health shall approve an exposure control plan generally conforming to the applicable standards set out in 29 C.F.R. 1910.1030-(d) which shall include but are not limited to the following:

(1) The entire premises and equipment shall be maintained in a clean, sanitary condition and in good repair;

(2) Thorough cleaning of reusable sharps, needles, and any portion of the tattoo and body piercing apparatus which touches the skin after every use and prior to sterilization;

(3) Autoclave sterilization of the reusable sharps, needles and any portion of the tattoo and body piercing apparatus which touches the skin. Autoclave shall be monitored monthly with an appropriate biological indicator and results shall be kept on file for a minimum of three years;

(4) Cleaning of work surfaces with a chemical germicide at least daily when there is a known contamination of a work surface with blood;

(5) Hands shall be washed before and after each customer contact;

(6) Disposable gloves shall be worn during the tattoo and body piercing procedure and after tattooing, the remaining unused dye or pigment in the single use or individual containers, shall be discarded along with the containers;

(7) Sharps and disposable needles should be discarded in a puncture resistant, leak proof container with a biohazard-warning label and taken to a biomedical facility for disposal;

(8) Other biomedical waste containing blood and other bodily fluid should be placed in closable containers which are labeled with a biohazard warning label and taken to a biomedical disposal facility for disposal;

(9) Inquiries shall be made by the tattoo operator or tattoo artist, and anyone giving a history of jaundice or hepatitis shall not be tattooed and/or body pierced;

(10) No person, customer, or patron having any skin infection or other disease of the skin or any communicable disease shall be tattooed and/or body pierced;

(11) All infections resulting from the practice of tattoo and body piercing which become known to the operator shall be promptly reported to the county board of health by the person owning or operating the tattoo and body piercing establishment/studio and the infected client shall be referred to a physician;

(12) All bandages and surgical dressing used in connection with the tattoo and body piercing of a person shall be sterile and be contained in individual commercial packaging;

(13) The county board of health or its designated representatives may conduct periodic unannounced inspections of any tattoo and body piercing establishment/ studio for the purpose of determining whether or not the establishment/studio and the person performing the art of tattoo and body piercing therein are in compliance with all applicable health provisions contained within this article and within county board of health regulations, and the exposure control plans filed by the applicant.

(d) In addition to the provisions of subsection (c) of this section, informed explanation to consumers of the proper subsequent care of a tattoo and body piercing must be given

and written records maintained by the operator of the tattoo and body piercing establishment/studio.

(e) Procedures for ensuring adequate explanation to consumers of the proper subsequent care of a tattoo and body piercing must be given and written records maintained by the operator of the tattoo and body piercing establishment/studio.

(f) The applicant shall remain in compliance with any and all regulations adopted by the county board of health and any future revisions of such regulations.

(g) The permit from the county board of health shall be valid until suspended or revoked and shall not be transferable with respect to person or location.

(h) The applicant shall also be charged a background investigation fee of \$25.00 to defray the cost of application processing. The minimum age of each applicant shall be 18 years of age. Applicants shall furnish two photographs showing a front and side picture of the full face of the applicant, size 2½ inches by 2¾ inches. Applicants shall present an annual medical certificate from a medical doctor licensed to practice in the state certifying that the person is sound physically, mentally, has good eyesight and is not affected with a disease which can be communicated by contact with blood through openings in the human skin.

#### **Sec. 42-53. - Enforcement.**

The county board of health or its designated representative, in order to enforce compliance with this article and the rules and regulations adopted thereof, shall be able to enter upon and inspect the premises of a tattoo and body piercing establishment/studio at any reasonable time and in a reasonable manner.

#### **Sec. 42-54. - Revocation of permit.**

The county board of health or its designated representative may suspend or revoke permits where the health and safety of the public requires such action. When, in the judgment of such board or its duly authorized agents, it is necessary and proper that such application for a permit be denied or that a permit previously granted be suspended or revoked, the applicant or holder of the permit shall be so notified in writing and shall be afforded an opportunity for a hearing pursuant to O.C.G.A. § 31-5-2. If such application is finally denied or such permit finally suspended or revoked, the applicant for, or holder of such permit shall be given notice in writing, which notice shall specifically state the reasons why the application or permit has been suspended, revoked or denied.

#### **Sec. 42-55. - Appeal of suspension or revocation of permit.**

Any person substantially affected by any final order of the county board of health denying, suspending, revoking or refusing to renew any permit provided under this article

may secure review thereof by appeal to the state department of human resources as provided by O.C.G.A. § 31-5-3.

**Sec. 42-56. - Penalties.**

Any person violating any provision of this article shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished as provided by section 1-13.

RE: Item 12 B Road Study RFP bids discussion

Attached are the bid tabs for the RFP's we received. After the discussions that ensued at the opening of the bids, I have included the breakdowns as best I could for each individual task listed in the proposals. I need direction as to what the Board's next action you wish to take and how you want me to pursue in this matter.

BID TAB RFP ROAD STUDY AUGUST 2025

LNCO	Madison	\$ 180,591
Atlas	Duluth	\$ 247,800
Kimley Horn	Atlanta	\$ 352,860
Keck Wood	Duluth	\$ 388,469.50

LNCO  
1 of 2

HART COUNTY COMPREHENSIVE ROAD ENGINEERING STUDY  
PRICE PROPOSAL

1	PAVEMENT CONDITION ASSESSMENT	\$ 85,000.00	LUMP SUM*
2	TRAFFIC ENGINEERING AT INTERSECTION	\$ 2,791.00	PER INTERSECTION**
3	PUBLIC WORKSHOPS	\$ 22,200.00	LUMP SUM***
4	LONG-RANGE PLANNING AND MODELLING	\$ 25,000.00	LUMP SUM****
5	COMPREHENSIVE TRANSPORTATION AND SAFETY PLAN	\$ 44,400.00	LUMP SUM*****
6	ALT: INTERSECTION TRAFFIC COUNTS	\$ 1,200.00	PER INTERSECTION**

\* PCIScore WITH COLOR-CODED HEAT MAP ONLY, HIGH-LEVEL DISTRESS INVENTORY AND PAVEMENT PLAN AVAILABLE FOR ADDITIONAL COST

\*\* ASSUMES A MINIMUM OF 5 INTERSECTIONS INCLUDED. IF LESS INTERSECTIONS ARE INCLUDED, PRICE WILL BE \$3700 PER INTERSECTION. DOES NOT INCLUDE MODELLING WITHOUT ITEM 4.

\*\*\* INCLUDES PREP AND ANALYSIS OF PUBLIC FEEDBACK.

\*\*\*\* ASSUMES THIRD PARTY MODELLING OF KEY INTERSECTIONS, BASIC GROWTH PROJECTIONS AND FUTURE IMPACTS WILL BE INCLUDED IN ACTP

\*\*\*\*\* NOT AN A LA CARTE ITEM. PUBLIC WORKSHOPS MUST BE PERFORMED TO COMPLETE ACTP  
AN HOURLY, NOT EXCEED CONTRACT MAY BE NEGOTIATED FOR A LESSER SCOPE AND REDUCED DELIVERABLES FOR SOME ITEMS.

**Statement on Required Insurance:** LNCO already meets or exceeds the insurance requirements and will provide COIs naming Hart County Board of Commissioners as an additional insured prior immediately upon receipt of the Notice of Award. Additionally, all our sub-contractors will maintain these same insurance requirements. If a contractor fails to meet the requirements at any time, they will be replaced and/or covered under LNCO, LLC.

Subtotal	\$12,900.00
<b>Total - Comprehensive Road Engineering Study</b>	
Total	\$247,800.00

**Notes:**

- 1) The estimate assumes a 8-month timeline from NTP.
- 2) 10-year maintenance plan will consist of crossline assessment/replacement, resurfacing and capital project prioritization based on County selected intersections.
- 3) Atlas will not inventory signs, guardrail, vegetation or lighting in its comprehensive road engineering study.
- 4) Calculation of effective structural number (Sneff) is based on 250 miles of primary roadway in Hart County
- 5) Public engagement assumes two in-person workshops + online tools.
- 6) Culvert inspections assume inspection of 250 crosslines
- 7) Cost per crossline evaluation per scope of work is \$90.40
- 8) Cost per traffic engineering at intersections per scope of work is \$10,000

Hartwell, Georgia 30643

Keck Wood

Attention: Terrell Partain, County Administrator

Re: RFP HC-ENG-2025-001, Comprehensive Road Engineering Study

Dear Mr. Partain and Selection Committee:

Compensation for work performed shall be **\$388,469.50**. Once per month during the existence of this contract, the engineer shall submit to Hart County an invoice for payment based on percentage complete of the work performed for the Project through the invoice period.

Phase #	Phase Name	Fee
1	Project Initiation & Management	\$23,743.80
2	Pavement Evaluation	\$141,544.80
3	Data Collection	\$61,645.50
4	Public Outreach	\$53,899.90
5	Alternative Selection	\$72,954.00
6	Final Report & Implementation Plan	\$34,681.50
Total		\$388,469.50

#### Assumptions

- Up to 15 intersections will be counted.
- The top 10 intersections identified by Hart County will be evaluated for traffic operations and safety improvements.
- Up to three (3) alternatives will be evaluated for each of the 10 study intersections.
- Up to five (5) concept layouts will be developed.
- Two (2) future year scenarios will be evaluated in the traffic simulations - Opening Year and Design Year.
- Pavement coring can be provided if deemed necessary after the Pavement Evaluation is complete. Pavement coring is int included in the above cost estimate.

Sincerely,  
Keck & Wood, Inc.

Clay Smith, PE, RSP1  
Vice President

## **MEMORANDUM**

Terrell Partain,  
County Administrator  
September 5, 2025

RE: Item 12 C Courthouse audio visual upgrade (ARPA grant)

I have attached the same information that Mr. T.J. BeMent presented at the called meeting on 9/2/2025. I have also included the additional information I have received from him as requested by the board before making a decision on the matter.

SHERYL B. JOLLY  
Administrative Judge

TRACY J. BeMENT  
District Court Administrator

## Tenth Judicial Administrative District

POST OFFICE BOX 1392

July 17, 2025

**RE: Recommendation of Vendors for the Northern Judicial Circuit's  
ARPA Audio-Visual Equipment Modernization Project**

The Northern Judicial Circuit currently has an award of \$1,200,000 as part of the American Rescue Plan Act (ARPA) grant funds provided to the judicial branch from the state.

Under the grant, the procurement of any Audio-Visual Equipment Modernization projects greater than \$250,000 shall be subject to all applicable federal procurement requirements found in 2 CFR § 200.320(b). The circuit has satisfied this requirement by seeking proposals from vendors utilizing competitive statewide contracts for Audiovisual Equipment and Related Services. A proposal was received from S&L Integrated under their statewide contract 99999-SPD-SPD0000210-0015. Two recording system proposals were received with BIS Digital selected as it a preferred partner with S&L Integrated.

County	A/V System S&L Integrated	Court Recording BIS Digital	Project Total
Elbert County	\$316,172.56	\$31,386.48	\$347,559.04
Franklin County	\$158,420.73	\$15,693.24	\$174,113.97
Hart County	\$316,841.46	\$31,386.48	\$348,227.94
Madison County	\$158,086.28	\$15,693.24	\$173,779.52
Oglethorpe County	\$157,728.51	\$15,693.24	\$173,421.75
<b>Total</b>	<b>\$1,107,249.52</b>	<b>\$109,852.68</b>	<b>\$1,217,102.22</b>

While the proposals together total just over the \$1,200,000 budget, sufficient funds remain in the underlying ARPA grant to cover the difference. Each county is requested to provide funds for their portion of the project to be reimbursed under the circuit's grant. Typically, each vendor will require a 50% deposit. Costs are also included for 5 years maintenance and support.

Thank you and please do not hesitate to contact me with any questions as we look forward to upgrading our courtroom technology in the circuit!

Tracy J. BeMent  
District Court Administrator

cc: Chief Judge Chris Phelps

## **Justification for Selecting S&L Integrated for Courtroom AV Upgrades in the Northern Judicial Circuit**

### ***1. Proven Expertise in Courtroom AV Technology***

S&L Integrated is the largest provider of courtroom audio-visual (AV) technology in Georgia, with nearly 200 courtrooms installed across the state. Their experience in judicial environments ensures they understand the unique requirements of courtroom technology, delivering solutions that enhance efficiency, reliability, and ease of use.

### ***2. Local Presence and Reliable Support***

As a Georgia-based company, S&L Integrated offers a strong local presence, with strategically located sales, technical, and service staff. This allows them to provide responsive support, minimizing downtime and ensuring the smooth operation of courtroom proceedings.

### ***3. User-Friendly and Robust System Design***

S&L Integrated has refined its courtroom AV solutions through collaboration with judges, staff, and court administrators. Their systems are designed to be both powerful and simple to use, allowing for seamless operation by courtroom personnel.

### ***4. Comprehensive Client Care and Remote Monitoring***

Each installation includes one year of full support, including both remote and on-site service. Their remote monitoring capabilities allow them to detect and address issues proactively, often before users even notice a problem. This reduces courtroom downtime and ensures uninterrupted proceedings.

### ***5. Adaptability and Future-Readiness***

S&L Integrated continuously evolves its technology in response to industry changes. During the COVID-19 pandemic, they successfully integrated video conferencing, live streaming, and video overflow solutions to accommodate remote court proceedings. This adaptability ensures that their systems are future-proof and capable of handling evolving courtroom needs.

### ***6. Structured and Efficient Project Execution***

S&L follows a well-defined project workflow, ensuring a smooth transition from contract signing to system installation and training. Their structured approach includes clear planning, material procurement, installation, system testing, and customer training. Additionally, their timeline efficiency allows for completion of multiple courtrooms within a single week when schedules permit.

### ***7. Commitment to Customer Satisfaction***

S&L prioritizes customer relationships and ensures any issues are swiftly addressed. Their executive leadership team actively engages with clients to resolve challenges, demonstrating a commitment to long-term partnerships.

### ***Conclusion***

Given their extensive experience, local presence, reliable support, and efficient implementation process, S&L Integrated is the ideal choice for upgrading the AV technology in the Northern Judicial Circuit courtrooms. Their client-focused approach and proven success in courtroom installations across Georgia make them the most suitable partner for this project.

## **Justification for Selecting BIS Integrated for Courtroom Recording in the Northern Judicial Circuit**

**Digital Court Recorder (DCR)** - DCR is a multi-channel audio and video recording platform specifically designed to address the limitations of most recording systems. It allows for up to 32 separate audio channels and up to 8 separate video channels to be recorded and stored in a single file. DCR can be used with a PC or portable system, or remotely capture audio and video from a centralized or non-centralized system without traditional digital USB mixers. It can also be accessed through a standard internet browser or network connection.

The recording can be saved to two locations simultaneously such as a hard drive, network drive, CD, DVD, or other PC-compatible storage media and locations on separate or shared networks. In addition, DCR offers file attachments, sealing of the recording, remote monitoring, and optional features such as remote control operation, case management integration, post-recording management, and virtual conferencing. The solution is compatible with most traditional laptops and tower PCs that run Windows 7 or higher.

In addition to its core recording capabilities, the DCR platform includes several other prominent features. Codec independence allows users to choose the size of the recording file and easily adopt new audio recording codec technology. The platform's equipment agnosticism allows it to capture sound systems, in-person participants, telephone participants, video, and VTC participants simultaneously. Confidence monitoring allows users to see level meters and listen to the audio recording as it is being written to the PC's hard drive, ensuring the best possible quality. Users can also embed notes directly into the audio/video files for easy management and faster retrieval, most notably through the use of bookmarks, DCR's most comprehensive feature.

Integrated into a system, DCR can be set to create a new audio file in specific instances, such as when a hearing starts or a light switch is turned on automatically naming the file based on requirements. Similarly, it can be set to close a file when a hearing ends or a light switch is turned off. If the recording is interrupted, the operator can easily and quickly resume the session. Files can be also started, paused, stopped, and resumed without creating a new file if needed.

**DCR Player** - DCR handles retrieval, playback, and exporting with DCR Player, which was designed with transcription in mind and is feature-rich to make the process as efficient as possible. DCR Player is 508 compliant and has been certified for use with Magic Screen Magnifier, JAWS Speech Software, and Dragon Software. It is currently supported on Windows, Android, iOS, and Mac OS devices and is also compatible with any USB foot pedal.

DCR Player allows operators to locate recordings by searching for identification data or by searching for any word or phrase in the bookmarks. Users can play, pause, stop, fast forward, rewind, and jump to specific points in the DCR file and navigate through the recording using bookmarks, jump-to-time, or a progressive slider bar.

The player includes a visual indication of the current point in the audio file, the total runtime of the entire file, and the file name. It allows users to listen and control the audio of each participant separately from the others. Or combine any number of channels and use built-in noise-filtering to eliminate ambient background noise during playback. It can even filter out ultra-low frequencies below 125 Hz to reduce noise from microphone bumps. The player also has auto gain control to maintain a constant audio level during playback, treble and base audio level controls, and variable pitch control to speed up or slow down playback without changing the pitch.

## Proposal Terms and Conditions

---

<b>Proposal ID</b>	P-2301413
<b>Effective Period</b>	This proposal is valid through 08-27-2025.
<b>Tax Status</b>	Sales tax will be added to an invoice unless a Tax-Exempt Form is on file with the BIS Digital corporate office.
<b>Deposit</b>	All orders above \$5,000 require a 50% deposit. Once the deposit for an order is received by BIS Digital, installation scheduling and shipment of goods will occur.
<b>Payment Terms</b>	Payment for the delivery of goods is due upon the transfer of possession of the goods to the buyer or its agent. Payment of services is due when all services have been fully performed in accordance with the terms of the agreement. The buyer shall promptly inspect the goods or services upon receipt and shall notify BIS Digital of any defects or non-conformities. An ACH number will be provided for payment.
<b>Cancellation</b>	<p>In the event a customer cancels or postpones an order after a deposit has been received, BIS Digital reserves the right to invoice for hardware, software, shipping costs, and any other materials procured for the order.</p> <p>Restocking Fee: A 20% restocking fee will be charged for all canceled orders.</p>
<b>Limited Warranty</b>	New software supplied by BIS Digital are covered for 90 days from the date of installation. New hardware supplied by BIS Digital are covered for 90 days from the date of delivery. Manufacturer Warranties do not cover On-Site Technical Support, Shipping costs, or Software upgrades.
<b>Software Assurance</b>	Annual Software Assurance entitles users to software upgrades at a fixed fee assessed at time of purchase.
<b>Substitutions</b>	Unforeseen supply chain disruptions or component shortages may impact the availability of goods. As a result, some items may require substitution and may be subject to price and/or delivery time variances. In these instances, BIS Digital will consult with the customer about options and alternatives.

## Key System Technology

---

### Digital Court Recorder (DCR)

DCR is a multi-channel audio and video recording platform specifically designed to address the limitations of most recording systems. It allows for up to 32 separate audio channels and up to 8 separate video channels to be recorded and stored in a single file. DCR can be used with a PC or portable system, or remotely capture audio and video from a centralized or non-centralized system without traditional digital USB mixers. It can also be accessed through a standard internet browser or network connection.

The recording can be saved to two locations simultaneously such as a hard drive, network drive, CD, DVD, or other PC-compatible storage media and locations on separate or shared networks. In addition, DCR offers file attachments, sealing of the recording, remote monitoring, and optional features such as remote control operation, case management integration, post-recording management, and virtual conferencing. The solution is compatible with most traditional laptops and tower PCs that run Windows 7 or higher.

In addition to its core recording capabilities, the DCR platform includes several other prominent features. Codec independence allows users to choose the size of the recording file and easily adopt new audio recording codec technology. The platform's equipment agnosticism allows it to capture sound systems, in-person participants, telephone participants, video, and VTC participants simultaneously. Confidence monitoring allows users to see level meters and listen to the audio recording as it is being written to the PC's hard drive, ensuring the best possible quality. Users can also embed notes directly into the audio/video files for easy management and faster retrieval, most notably through the use of bookmarks, DCR's most comprehensive feature.

Bookmarks allow operators to enter notes while a recording is in progress. Each bookmark includes a time stamp and links directly to the audio/video segment. The platform also provides automatic notes indicating the start, pause, and stop of the file and includes information on the time, speaker, and metadata. Users can utilize bookmarks to enter unique identification data relevant to their needs including but not limited to personal information (such as a name or title), officer's badge number, agenda topic, recording ID, etc. They can also attach any digital file type to the aforementioned examples or upload it as a standalone bookmark. Predefined Bookmarks allow for prefilled data to be entered during a recording (such as docket information from an agency's case management system). Whereas Text Substitution allows users to create shortcuts for commonly used words or phrases. In any case, bookmarks can be edited during or after recording.

Integrated into a system, DCR can be set to create a new audio file in specific instances, such as when a hearing starts or a light switch is turned on automatically naming the file based on requirements. Similarly, it can be set to close a file when a hearing ends or a light switch is turned off. If the recording is interrupted, the operator can easily and quickly resume the session. Files can be also started, paused, stopped, and resumed without creating a new file if needed.

### DCR Player

DCR handles retrieval, playback, and exporting with DCR Player, which was designed with transcription in mind and is feature-rich to make the process as efficient as possible. DCR Player is 508 compliant and has been certified for use with Magic Screen Magnifier, JAWS Speech Software, and Dragon Software. It is currently supported on Windows, Android, iOS, and Mac OS devices and is also compatible with any USB foot pedal.

DCR Player allows operators to locate recordings by searching for identification data or by searching for any word or phrase in the bookmarks. Users can play, pause, stop, fast forward, rewind, and jump to specific points in the DCR file and navigate through the recording using bookmarks, jump-to-time, or a progressive slider bar.

The player includes a visual indication of the current point in the audio file, the total runtime of the entire file, and the file name. It allows users to listen and control the audio of each participant separately from the others. Or combine any number of channels and use built-in noise-filtering to eliminate ambient background

noise during playback. It can even filter out ultra-low frequencies below 125 Hz to reduce noise from microphone bumps. The player also has auto gain control to maintain a constant audio level during playback, treble and base audio level controls, and variable pitch control to speed up or slow down playback without changing the pitch.

As for exporting, DCR Player allows users to export any part of a file to a WMA, WMV, WAV, MP3, MP4, AVI, PDF, or DCR file with any combination of channels, video, and bookmarks (as long as the format supports it). Music formats break down bookmarks into song tracks and allow users to listen to recordings from CDs, DVDs, USB storage devices, and hard drives. When creating MP4s, DCR Player will also create a separate meta-data file. This includes an HTML file that can be viewed in a browser and allows for playback of the video, audio, and use of bookmarks.

## Installation Overview

---

BIS Digital is committed to delivering high-quality AV systems that meet the needs of our clients; our installation process is an integral part of this commitment. The following section is a general overview of the steps we take to ensure a seamless experience. Note: The final schedule is determined with the client after a proposal is accepted and a purchase order is received.

Our installation process begins with careful planning and design to ensure that the AV system meets the needs of the end users and is properly integrated into the space. This includes conducting site surveys to assess the physical space and infrastructure, as well as working with clients to understand their specific needs and requirements. In circumstances where we are not able to conduct a technical walkthrough pre-quotation or believe the project would benefit from an additional review, we will coordinate a site survey at the client's earliest convenience. This allows us to properly assess the physical space and infrastructure, and solidify whether any site preparations need to be made in advance, such as providing lockable storage or installing power outlets as needed to support the AV system. Product orders will commence immediately following this final site review meeting and can take 2-3 weeks, depending on manufacturing and shipping times.

Once the site is prepared, BIS Digital will connect and configure all hardware and software components of the AV system. All work will be performed by BIS Digital Technicians only, with no subcontractors. This may include installing and configuring audio processors, amplifiers, and control systems, as well as integrating the AV system with other building systems as applicable. Installation times can range from two days to two weeks per room depending upon the complexity of the system and environment. Custom programming and support will be provided by BIS Digital programmers, who will be available throughout the installation period and for routine performance upgrades and maintenance through remote service. BIS Digital follows all local building codes and regulations when performing work and ensures that all components are installed safely and securely.

After all elements are installed and tested, our technicians will provide user training to ensure that all end users are comfortable operating the AV system. The scope of training will vary depending on the complexity of the project and the number of users who need to be trained. This may include hands-on training sessions, demonstrations, and the creation of user manuals or other documentation as needed. Ongoing training can also be provided through an on-site service or remote service agreement if desired. Our goal is to ensure that all end users have the knowledge and skills they need to effectively use and maintain the AV system.

## Support and Service Overview

---

At BIS Digital, we are committed to meeting our customers' service and support requirements and honoring all product warranties. We also offer comprehensive maintenance programs that include on-site and remote support, service, and training in addition to warranty fulfillment. Complete details are available upon request.

We have a 24/7 toll-free service hotline staffed by experienced technical service representatives, as well as options for placing service calls directly on our website or by phone. In most cases, we can resolve issues over the phone or in a video conference, but there may be times when an on-site visit is necessary. We use hosted customer relationship management (CRM) software to track the performance of our supported systems and our customers' services. Our technicians receive service calls through our internal service coordinator, and the cost of service coverage depends on the customer's service agreement. When a service call is completed, an automated email is sent to the customer with the results.

To ensure that we're responding quickly and efficiently to our customer requests and service issues, we've also implemented a Service Level Management Escalation Policy that outlines how we handle different levels of severity and how we communicate with our customers. Sometimes, we may need to escalate issues for technical or managerial reasons. Technical escalations involve bringing in additional expertise to resolve technical problems as quickly as possible, while managerial escalations involve higher levels of decision-making authority to address procedural or behavioral obstacles that may be holding up the resolution of a situation.

To optimize these systems, we ask every customer to contact the Technical Support Center first:

(800) 715-1234  
Support@BISDigital.com

In the event a BIS Digital technical support representative does not respond in a prompt manner (within 8 business hours), customers can escalate their service issue to the contacts below.

Account Manager – Dan Meyer  
(800) 834-7674 x 4518

Technical Services Manager – Gary Jones  
(800) 834-7674 x 4513

Director of Operations – Mitch Wise

Client wants the start/stop from QSC Room Control touch panel - installed by another A/V Vendor

#### Client responsibilities:

Client must have A/V vendor install Cat6 cable run with RJ45 wall plate installed at recording station.  
Client must have A/V vendor configure outputs from Q-SYS DSP for 8 channels, as directed by client.  
Client must allow remote access for BIS tech to install software, configure channels and train end user.

#### Will any BIS Digital provided equipment need to match existing equipment?

No - All BIS Digital provided equipment can be standalone and does not need to match any existing equipment.

#### System Training Required?

Yes - BIS Digital Technicians will train end users on using the installed system.

#### System:

Courtroom

#### Multiple Rooms?

Yes - This system is for one room that will be duplicated across one or more similar rooms.

#### Applicable Room Name(s):

Elbert County Superior Courtroom 1  
Elbert County Superior Courtroom 2  
Franklin County Superior Courtroom  
Hart County Superior Courtroom 1  
Hart County Superior Courtroom 2  
Malden County Superior Courtroom  
Oglethorpe County Superior Courtroom

#### Will BIS Digital provide ongoing support?

Remote Support

Is the client planning to record with DCR?

Yes – BIS Digital is introducing recording via DCR.

DCR PC:

	Location	Status	Type	Recording Light	Recording Sign	Web Clock Sign	Start/Stop Light Switch	Physical Start/Stop Button	Physical Bookmark Button	3rd Party Control
DCR PC	Court Reporter	Provide 1 New	Desktop							✓

DCR File Storage (in addition to C: Drive):

	Location	Status	Type	Storage Capacity	Use Case	Minimum Retention Time (Years)
HD1	Court Reporter	Provide 1 New	Internal Hard Drive (SSD)	TBD	Simultaneous Mirroring	Other (see notes)

DCR License:

Status	Existing Audio Channels	Existing Video Channels	New Audio Channels	New Video Channels	Real-time Captioning	Docket Integration	Hosted Streaming	Network Monitor	Network Control	RTSP Streaming	Screen Capture	Transcription Assistant	Virtual Courtroom	Web Access	Web Clock
Provide 1 New			8												

Is there a Network Approval Process?

No

Will an IT Administrator or someone with knowledge of the network be available throughout the project?

No – Client did NOT confirm.

## General Scope of Work Description for Installations

BIS Digital is committed to delivering high-quality AV systems that meet the needs of our clients; our Scope of Work process is an integral part of this commitment. Please note that this document is intended as a preliminary assessment only and may be subject to a final technical assessment of your requirements. Its use is limited to the purpose of allowing you to verify, via signature, whether the listed equipment, software, and installation needs were accurately recorded. The final implementation of equipment and functionality may vary due to factors including but not limited to: budget, infrastructure, and manufacturer constraints. This document does not provide any implied or express warranties, and BIS Digital accepts no liability for any reliance on the information contained within it beyond its intended purpose as an initial work assessment. Unless otherwise specified, the following section lists BIS Digital and client responsibilities for a standard installation.

### **BIS Digital will be responsible for the following:**

- Provision of all necessary labor, supervision, tools, equipment, materials, services, testing, and other expenses for the successful installation and delivery of a complete and operable A/V solution.
- Performance of all work as described in the scope of work, including installation and testing of specified equipment and final circuit terminations in the head-end equipment racks.
- Project management, personnel, supervision, staff, labor, installation planning, scheduling, documentation, installation quality, and testing devices as required to complete the work.
- Furnishing of specified equipment, with the caveat that BIS Digital reserves the right to bill for equipment as stored materials when delivery or installation is not possible.
- Recommendation for the installation of dedicated electrical power at the head-end, end-user equipment, or at the location of final control(s).
- Production of deliverables and any substitutions on a schedule established under a purchase agreement.

### **The client will be responsible for the following:**

- Preparation of the installation site, including but not limited to carpentry, network connection installation, and electrical work.
- Provision of scaffolds, ladders, or high-reach equipment for installation work in ceilings over 14 feet. BIS Digital will quote rental equipment as needed or upon request.
- Responsibility for any external noise or factors creating noise within the systems not exposed by installed electronic equipment.
- Ensuring that installation structures will support the weight of equipment, including but not limited to wall-mounted displays, hanging loudspeakers, and equipment racks.
- If required, customer-provided contractors will be responsible for the provision, hanging, and installation of all rigid electrical junction boxes, AC power, relay switches, conduits, and any structural reinforcement means as required for the proposed systems.

By signing below, I certify that I am an authorized signer for 10th Judicial District of Georgia and have reviewed and approve the Scope of Work provided by BIS Digital. I understand that this Scope of Work defines the equipment requirements for the project, and certify this document accurately captures the needs of my organization. I also acknowledge that any changes to the Scope of Work must be approved in writing by all parties involved.

## Disclaimer: Shipping and Handling

### Shipping Information and Requirements

By engaging in our shipping services, customers are obligated to provide precise shipping contact information. This includes the first and last name, title, phone number, and email address of the individual designated to oversee shipping logistics. Customers must also explicitly state whether their location possesses a designated dock for receiving shipments. This information is crucial for planning to ensure the most efficient and timely delivery method.

### Direct Shipments from Manufacturers

BIS Digital reserves the right to dispatch particular items, such as monitors and specific components, directly from the manufacturer. While this approach may result in separate arrivals from bundled systems, it is essential to secure timely deliveries and the uncompromised condition of individual components. Rest assured, we manage this process to minimize any potential disruption to your project.

### Shipping Costs

The expenses associated with shipping and handling will be determined according to project-specific requirements. Customers will receive a set price for these costs included in a Bill of Materials prior to proceeding with any shipment. Our objective is to maintain cost-efficiency while upholding the highest standards of care for your equipment.

### Shipping Schedule and Tracking

BIS Digital collaborates closely with customers to establish a shipping schedule that aligns with project timelines. Timely delivery is a paramount commitment, and customers will be kept informed of the shipping status through proactive communication. Additionally, when applicable, customers will be granted access to tracking services and notifications, affording them the means to monitor the status of their shipments, thereby facilitating appropriate preparation for the arrival of their AV equipment.

### Disclaimer and Contact Information

This Shipping and Handling Disclaimer serves as a general guideline for our shipping and handling procedures. BIS Digital is firmly committed to addressing specific inquiries or concerns regarding shipping in a prompt and efficient manner, all with the overarching goal of ensuring a seamless and expedient shipping experience for your AV equipment. Should you require further clarifications, have concerns, or need additional assistance, we encourage you to reach out to our dedicated support team.

By signing below, I certify that I am an authorized signer for 10th Judicial District of Georgia and have reviewed and approved BIS Digital's Shipping and Handling Disclaimer. I understand that this disclaimer provides a general overview of shipping expectations and agree to hold BIS Digital harmless from liability arising from third-party carrier errors, damages, or delays. Furthermore, I acknowledge that if specific shipping instructions, such as address details, carry-in delivery, or attention-to information, are required, I will promptly forward these instructions to the designated account manager for implementation. I also recognize that any delays in providing accurate shipping information may result in project delays, and I accept responsibility for mitigating such delays by promptly addressing any shipping-related requirements.

Client Name \_\_\_\_\_ Signature \_\_\_\_\_ Date \_\_\_\_\_

## **Disclaimer: Client-Initiated Modifications and Post-Installation Changes**

This document serves as a disclaimer by BIS Digital, Inc. to address concerns regarding client-initiated modifications and changes made to audiovisual systems during or post-installation. We urge all clients, their respective staff, and any applicable third-parties, to carefully review and understand the following points.

### **Responsibility for Modifications**

BIS Digital takes pride in delivering high-quality audiovisual systems and solutions that are carefully designed, installed, and configured according to the client's specific needs and requirements. Any modifications, alterations, or changes made to the installed systems by the client or their staff after the completion of installation are outside the scope of our original service and responsibility.

### **Risk and Implications**

Clients are advised that making unauthorized modifications to the audiovisual systems, including hardware and software, may result in compatibility issues, operational errors, and system malfunction. BIS Digital shall not be held responsible for any issues or damages that may occur due to these client-initiated modifications.

### **Client Decision-Makers**

We encourage clients to designate responsible individuals who will oversee and approve any changes or updates to the audiovisual systems, and who understand the potential consequences of unauthorized modifications.

### **Client Communication**

In the event that clients intend to make changes or upgrades to the installed systems, we kindly request that they notify BIS Digital in advance. This will allow us to assess the proposed changes for compatibility and potential impacts on the system.

### **Warranty and Support**

Our standard warranty and support services apply to the audiovisual systems as they were originally installed and configured by BIS Digital. Any client-initiated modifications may void these warranties and may incur additional charges for repair or maintenance.

### **Dispute Resolution**

In the event of disputes arising from client-initiated modifications and their impact on the audiovisual systems, BIS Digital is open to engaging in a constructive dialogue to find mutually acceptable solutions. However, the ultimate responsibility for such modifications rests with the client.

### **Acknowledgment**

By continuing to use or make changes to the audiovisual systems installed by BIS Digital, clients acknowledge their understanding and acceptance of this disclaimer.

### **Contact Information**

For any questions, concerns, or inquiries related to this Disclaimer, please contact BIS Digital through our official channels.

Please note that this disclaimer is a fundamental aspect of our service agreements. BIS Digital is committed to delivering exceptional AV solutions and ensuring the longevity and functionality of our installations. We appreciate your cooperation in preserving the integrity of our work.

## Client Site Preparation Checklist

As part of delivering a seamless experience, there are a few things clients can do ahead of time that greatly impact the speed and efficacy of an on-site or remote installation. In either instance, BIS Digital highly recommends reviewing the client checklist provided below and completing all applicable items within the timeframes listed should you choose us as your technology partner. If you have any questions about the items on this list, please don't hesitate to contact your account manager or call us directly at (800) 834-7674.

### At least 30 Days Prior to Installation Date:

- ☐ Identify the location where the AV equipment will be installed and ensure that it meets the necessary specifications, including proper power and electrical outlets, HVAC, lighting, and structural support.
- ☐ Provide BIS Digital with a comprehensive list of all existing AV equipment and systems that will be integrated with the new equipment, including make and model numbers.
- ☐ Ensure that all necessary software and firmware updates have been performed on existing equipment.
- ☐ Ensure that all required permits and licenses have been obtained, including those related to construction or renovation work as applicable.
- ☐ Ensure that any necessary network infrastructure is in place, including existing routers, switches, and firewalls.
- ☐ Provide BIS Digital with any applicable IP addresses to ensure that the AV equipment is properly configured to integrate with the network.
- ☐ Ensure that the appropriate personnel are present during the installation, including facilities personnel, IT personnel, and any other key stakeholders.
- ☐ Establish a clear communication plan with BIS Digital to ensure that any issues or concerns that arise on-site are promptly addressed.
- ☐ Coordinate with BIS Digital to schedule any necessary training sessions for end-users to ensure that they are familiar with the AV equipment and its functionality.

### If Archiving Recordings to a Network Path:

- ☐ Create a dedicated folder on the network for recording files.
- ☐ Ensure the Universal Naming Convention (UNC) path is available for that folder.
- ☐ Ensure each recording PC will have network access to this path.
- ☐ Ensure user logging into a recording computer will have read/write access to this path.

### Day Before Installation:

- ☐ Provide BIS Digital with any necessary access codes or keys to the installation site.
- ☐ Ensure any pre-shipped equipment is accounted for and accessible to the technicians on site.
- ☐ Ensure any existing computers will be in proper working order, free of viruses, have internet access, and be in the place where they will be used.
- ☐ Provide BIS Digital with any necessary user credentials and network access information to ensure that the AV equipment is properly integrated with the network. If this cannot be provided, please ensure someone with administrator rights will be available during the installation.

### Note on Recording Storage:

The DCR recording software can write files to multiple locations simultaneously. BIS Digital will create a C:\DCR Recordings folder on the local recording computer as the primary storage method. A mirror copy can be written to a network, external HD, flash drive, SD card, or CD/DVD. Mirroring to a network location is the preferred method. When mirroring to a network path, any user that intends to record audio/video will also need read/write/modify access to this network path so that the files can mirror successfully. When considering storage methods, BIS Digital recommends revisiting state or local government requirements for long-term storage.

### If Archiving Recordings to a CD/DVD:

- ☐ Ensure any existing CD/DVD burners meet BIS Digital specifications, function properly, and be installed at each recording computer.
- ☐ Ensure any applicable CD/DVD writing software is installed unless purchasing from BIS Digital.
- ☐ Provide a sample of writable media for testing/training and going live with the system. CD-R and DVD +R are the supported disk types.

## Disclaimer: Standard Training

The scope of training provided by BIS Digital is limited to the standard operation and maintenance of the equipment as outlined in this scope of work and in accordance with the manufacturer's requirements. Training is intended to equip end-users with the knowledge necessary to independently and effectively operate the integrated audiovisual systems.

Our training sessions are conducted by an installing technician who is most knowledgeable about the specific system, especially in cases where adjustments or modifications have been made due to unforeseen conditions on-site. This ensures that users receive tailored, accurate, and up-to-date information regarding their AV system.

The estimated total hours of training, as listed in the table below, are calculated under the assumption that each user will be trained individually. This approach is adopted because BIS Digital recognizes that end-user availability for training may vary significantly. However, we can accommodate group training sessions for efficiency. Please note that group sizes are generally limited to no more than five (5) people to ensure the quality and effectiveness of the training.

Please be aware that our training sessions are standardized and may not accommodate specific learning disabilities or impairments. Our technicians are not certified trainers and are unable to provide specialized training for such cases. If any subset of client users requires special accommodations due to learning disabilities or impairments, we strongly encourage a "train-the-trainer" approach with the client. This means that the client should designate an individual or individuals within their organization to receive the standard training and then provide tailored training or support to those with specific needs.

While every effort is made to provide comprehensive training, BIS Digital shall not be held liable for any errors, omissions, or issues arising from the use of the integrated audiovisual system following training. Users are encouraged to seek additional support or clarification if necessary.

By proceeding with training services provided by BIS Digital, you acknowledge that you have read and understood this disclaimer, and you agree to abide by the terms and conditions stated herein. If you have any questions or concerns regarding our training services or this disclaimer, please do not hesitate to contact us.

TITLE		
GSC ARPA Courtroom AV Upgrades		
SCOPE OF WORK		

Georgia State Contract - Audiovisual Equipment and Related Services - 99999-SPD-SPD0000210-0015

## Courtroom - Typical of Two Courtrooms

### Judge's Bench

- Touch panel
  - Panel will allow for control of court system as well as video preview of shared content - if product availability does not allow for on-panel video preview a separate video monitor will be provided
  - High Level Touch Panel Overview:
    - Video Source Selection
    - Video Blackout – stops all video output
    - Program Audio Control
    - Individual Microphone Control
    - Sound Masking Engine – Enable/Disable
      - Stops microphone output in the room, but continues microphone signal propagation to the court reporter
      - Plays masking audio through the system speakers
- Desktop mounted speaker for voice lift
- Microphone with pushbutton mute base
- Sidebar microphone
- Sidebar microphone intended to capture sidebar conversations for the record - this feature will not amplify sidebar conversations within the room
- HDMI presentation input

### Witness Stand

- Touch enabled monitor to display shared content and allow for annotation over shared content
- Microphone in shock mount with no pushbutton mute
- Microphone requires a hole to be drilled in witness stand table
- Desktop mounted speaker for voice lift

### Clerk's Desk

- Microphone with pushbutton mute base
- Desktop mounted speaker for voice lift

### Evidence Presentation

- Lectern provided in quote
- Includes document camera shelf and cable pass through cubby
- HDMI presentation input
- Document camera
- Microphone with pushbutton mute base

## Lawyer Tables (Typical of 2)

- Microphone with pushbutton mute base

## Court Reporter Desk

- Touch panel
  - Panel will allow for microphone volume control of signals feeding the headphone amplifier mentioned below
  - Sources being sent to the recording will not be affected by touch panel control
- Dante connection to support BIS DCR integration (client choice based on recording software)
  - This connection will be capable of giving up to 8 discrete audio sources to the court reporter software
  - The court reporter software must accept standard multi-channel Dante audio interfaces as an input device
- XLR input connection for Stenographer's mask
- Headphone amplifier
  - This unit will give the court reporter the ability to hear a summed mix of the microphone volumes being affected on the touch panel
- Video
  - Supply new 15" Video monitor for Evidence and VTC viewing
  - Add Video Decoder
  - Add adjustable table mount
- Price assumes the court reporter can use Dante to capture audio and will not require analog connections to an outboard audio interface

## Display Location(s)

- Two (2) large format flat panel(s), wall mounted with articulating arm brackets.
- Price assumes the customer will supply power and video/data pathway from Cart location to AV rack.
- Display(s) will show content shared from the Judge's Bench or Evidence Presentation Lectern

## In-Room Audio Reinforcement

- (2) Wall Mounted Column Array speakers to provide even coverage across the entire Courtroom.
- Speakers are available in Black or White to be chosen prior to ordering materials.

## Analog Press Feed

- Mono audio output plate for connection to standard press capture equipment
- Location of press feed to be determined before installation

## Rack Location

- Location requires (2) 120V 20A dedicated branch circuits at 18" AFF provided by others
- Location requires (2) data connections to client network
- Location minimum height must be 8'
- Location required sufficient ventilation and must be climate controlled
- Location of rack to be determined before installation

## Overall

- Price assumes courthouse IT staff will allow VPNs and other monitoring capabilities for the audiovisual system
- Price includes 1 year of remote monitoring and on-site troubleshooting support and repair – after this period the option to renew will be available
- Price assumes infrastructure (power, data, etc.) is complete before audiovisual installation begins
- Price assumes cable runs to rack location are less than 330' and do not require surface-mount raceway or additional conduit paths that do not exist

## Selected Options

### Agnostic VTC

- Install (4) cameras to capture
  - Judge
  - Witness
  - Lawyer Left Table
  - Lawyer Right Table
- Camera views will be processed into a single quad view image
- Audio via system microphones
- This feature requires an owner furnished PC to be located at the Judge's Bench with appropriate conferencing software installed to be tested during installation
- This feature requires the user to select the proper camera / microphone / speakers in the chosen software
- No call controls will be available on the system touch panel
- Any evidence presentation must be made from the owner furnished VTC PC by sharing the local screen, no system video inputs will be available

### Streaming

- Install (1) camera in the rear of the room to capture court proceedings
- Audio via system microphones
- This feature requires a client owned streaming account (YouTube, Vimeo, etc.) that can be streamed to without generating a new stream key with each instance
- If the streaming account capability matches the above requires a start / stop stream button will be available on the system touch panel

### Lawyer Table Upgrades

- Add (1) 15" monitor per lawyer table that will mirror content shown on system displays

### Annotation

- Install annotation monitors at witness stand and evidence presentation lectern
- Annotations made on either mentioned monitor will be displayed on all system monitors
- Annotations made cannot be sent to the far end of a video call if the agnostic VTC option is chosen.
- Annotation can be disabled from the Judge's Bench touch panel
- Wireless Presentation capabilities for Windows, Mac, IOS and Android using the integrated Wi-Fi access point

### Client Care

Client Care provides comprehensive coverage for a range of services and situations. Remote monitoring and unlimited on-site and remote service calls are included, ensuring that your systems are continuously monitored and that you have access to prompt assistance whenever needed. Additionally, any issues related to workmanship or installation, as well as equipment failures covered by the manufacturer's warranty, are fully covered. In the event of equipment failures outside of a manufacturer's warranty we will identify the problem, arrange for any equipment to be returned to the manufacturer and then reinstall the equipment

**QUOTATION: 19676**  
S&L Integrated Systems, LLC  
7 Midway Rd  
Thomasville, GA 31757

after repair.

However, there are certain exclusions to the coverage. The contract does not cover the equipment replacement cost or repair for items that fall outside the manufacturer's warranty period. Similarly, if equipment needs to be replaced due to customer damage or acts of God, the replacement cost will not be covered. Any programming changes, additional training, or the addition of equipment or functionality not included in the original scope of work are also not covered under this contract.

Client Care begins when our GSC 180 Day Workmanship Warranty ends.

## **MEMORANDUM**

Terrell Partain,  
County Administrator  
September 5, 2025

RE: Item 12 D Setting the approved methods of identification for local tipping fees

Since we made a change in the fee schedule for the transfer Station on in county and out of county tipping fees, we have used several methods to identify if the trash originated within Hart County or outside of the county. Our first method was the address on the driver's license, records, tax, utility bills, etc. that proved that the address was within Hart County. For construction debris we also used a copy of the building permit for the construction or a load ticket from the container company showing where the container was picked up from. There are still some questions for others that home address is in another county, but their business is located in Hart County and would qualify that trash to be charged a local rate. I have been very flexible with attempting to accept different identification methods but The Board needs to set an official policy on this.
